Mr. James B. Webb The Under Secretary of tate Department of State hashington, D. C.

Wy dear Er. Tebbs

Admiral Hillankoetter has banded me your letter of 2 October 1950 in which you advised this Agency concerning developments in the psychological warfare field and requested the designation of a representative of the Central Intelligence Agency for covert activities as a member of the Mational Psychological Strategy Board. You have also requested the designation of a limison representative from this agency to be available as required for intelligence support.

I share your view that it is desirable at this time to formalise the existing Psychological Strategy Board in such a way as to render it a nucleus for the type of board that could ultimately be clothed with the breader authority proposed in MSC 74. It would seem appropriate for the Control Intelligence Agency to be represented on this important coordinating board in view of the operating responsibility of this Agency in the psychological worfare field. Mr. Fronk G. Wisner, previously designated by Admiral Hillowhootter as the Central Intelligence Igeogr policy consultant, is hereby designated as such master.

It is my understanding that bosn serving as a fulltime representative of the Central Intelligence Agency on the Interdepartmental Foreign Information Staff. I should like to have him continue in this capacity and, at least for the present, I believe that in addition to his other duties, he should serve as the intelligence lisison officer to the Board.

Sincerely yours,
